President's August Message

As the summer draws to a close, I hope you all managed to find some time to relax and recharge before the busy autumn season ahead. September always feels like a fresh start for the Chapter, and this year is no exception, with a packed calendar of events and initiatives to look forward to.

Chief among them is **PM Week**, kicking off **Monday, 7th September**. Over the course of the week, we'll be hosting sessions spanning enterprise agility, sustainability, capital projects, PMO practice and more, with up to 8 PDUs available for those who attend across the full programme. From our Enterprise Agility workshop to Behind the Build, our PMO Clinic and a look at overcoming imposter syndrome, there is something for every project professional, regardless of where you are in your career or what sector you work in. I would encourage everyone to take a look at the full schedule and register now, we'd love to see you there.

I'm also delighted to share that we've set the date for the **PMI Ireland National Conference 2027**. We'll be heading to the Aviva Stadium on 11th May 2027 for a full day dedicated to project leaders turning vision into reality. Tickets go live in mid-September, so keep an eye out for further details, speakers and topics in the coming weeks.

None of this would be possible without the continued dedication of our volunteers, sponsors, contributors and members. Thank you for everything you do to make our Chapter such a vibrant community. I look forward to seeing many of you at PM Week and our other events over the coming months.

Regards,
Daniel Eagling

Save the Date — PMI Ireland National Conference 2027

The Future is Shaped Today: Where Project Leaders Turn Vision into Reality

Mark your calendar for **11th May 2027** - we're heading to the **Aviva Stadium** for a full day dedicated to project leaders turning vision into reality.

2027 will bring a fresh perspective to the pillars shaping the future of our profession - enterprise agility, capital projects, sustainability and social impact, PMO and much more - explored through new lenses, honest conversations and real cases.

Whether you're a project professional or simply curious about how projects shape the world around us, this is your chance to learn, connect, and engage with the people building the future of the profession.

More details, speakers, and topics to come - tickets **go live mid-September**. Stay tuned!

- ▶ **Fri 11 Sep** — Binning the Imposter
 - Register: <https://pmi-ireland.org/calendar?eventId=47369>

PM Week Event Spotlight

Enterprise Agility: Turning Insight into Action

How adaptable is your organisation when change arrives faster than expected?

As disruption, complexity and uncertainty become part of everyday business, the ability to adapt quickly while continuing to deliver value has never been more important.

On 7 September, the Ireland Chapter of PMI will kick off PM Week 2026 with **Enterprise Agility: Turning Insight into Action** - an interactive workshop designed to move the conversation about agility from theory to practical action.

Participants will be introduced to the Manifesto for Enterprise Agility and explore what Enterprise Agility means for today's project, programme and PMO environments.

Rather than simply talking about agility, this session is about making it actionable. Participants will learn from peers, explore real-world barriers to organisational agility, and consider practical ways to strengthen adaptability, decision-making and value delivery within their own organisations.

The goal? Every participant leaves with at least one concrete change they can try within the next 30 days.

Whether you work in projects, programmes, a PMO, transformation or organisational change, join us as we explore how to turn Enterprise Agility insight into action.

Interested in joining us? Register now: <https://pmi-ireland.org/calendar?eventId=47362>

Join the Smarter Energy Challenge!

According to PMI, sustainability is the leading predictor of project success, as highlighted by **Lucila Dotto, PMI's Head of Sustainability**, during our most recent webinar. The adoption of smart and sustainable energy solutions is a key component of sustainability. With this in mind, we would like to invite you to participate in the **Smarter Energy Challenge**, organised by our partner, **Techies Go Green**.

The Smarter Energy Challenge is a business focussed programme which introduces participants to a range of efficiency measures and clean energy solutions. Using real-world examples we show how they can be integrated into a single smart managed system.

This programme will help you:

- Select the right mix of renewable energy solutions
- Utilise smart energy management systems.

- Evaluate grants and green finance options.
- Build a clean energy transition roadmap.

The programme includes:

- 4 online workshops
- 4 case study site visits
- a full day conference
- smarter energy workbook

Learn more and register: www.techiesgogreen.com/smarter-energy-challenge

Dates: September 21 – November 27
