Student
Clubs

What is a PMI® Chapter Student Club?

A PMI Chapter Student Club is a group of university or higher education students (18+) collaborating with their local PMI chapter to enhance their project management skills, work towards shared goals, and build a supportive community.

The Chapter Student Club program offers a structured framework for creating or aligning clubs with PMI and career long learning and development initiatives. This program equips chapters with best practices and tools to successfully establish and sustain student clubs, fostering long-term growth and development.

Student
Clubs

PMI® CHAPTER STUDENT CLUBS **MUST:**

- Be self-governed by Student Volunteer Leadership team
- Have approved governing documents
- Have a clear communication channel with the chapter

SOME OF THE **BENEFITS** FOR PMI CHAPTER STUDENT CLUBS:

- PMI student membership with discount through Group Student Membership program
- Swag package and PMI Chapter Student Club logo
- Student Leader access to regional and global events
- Digital Community – Coming Soon!

Requirements

Chapters interested in establishing a PMI Chapter Student Club Program, **must***:

- Have a chapter board member in the Academic Outreach role or similar, responsible for the Student Club. This board role can be supported by additional volunteers in a committee structure.
- Have designated faculty member(s) at the school supporting the students and the club.
- Have a minimum of 10 students in the club over the age of 18, interested in or studying project management.
- Include student club support/programs as part of their annual planning.

Interested in joining?

If your chapter meets all the requirements above, please fill out this form and we will contact you soon:
